A Smarter Way to Secure Coverage

Organizations using SecurityScorecard reduce their cyber risk — and their premiums. Our platform delivers **continuous, third-party validated cybersecurity insights** that lower the likelihood and impact of a third-party breach.

By proactively managing your supply chain risk, you unlock measurable savings during your next cyber insurance renewal.

By adopting SecurityScorecard, organizations can:

Identify and prioritize high-risk vendors

Real-time monitoring of your vendor ecosystem

Accelerate vendor issue resolution

Collaborative tools for remediation and score improvement

Mitigate cyber risk across your supply chain

Reduce the risk of a third-party breach by **up to 75%**

Present clear proof to your underwriter

Objective, data-backed evidence of cyber resilience

Proven Results

29% of breaches are traced to third-party vulnerabilities

50% of BEC claims originate from compromised vendors

75% breach risk reduction with SecurityScorecard

90% faster issue resolution with vendors and suppliers

Ask your broker to submit this with your next renewal to **claim your discount**
